## TECHNICAL SKILLS

HTML | JavaScript | CSS | Bootstrap | Git | GitHub | jQuery | NodeJS | Express | Python | SQL | Django  
REACT | MongoDB | Mongoose | PostgreSQL.

---

## RELEVANT EXPERIENCE

### TradeFlow

Developer-Designer | 1 week | [Github](#)

- *Technologies used: React.js, Express.js, Node.js, CSS, Bootstrap, and MongoDB*
- TradeFlow is a comprehensive solution for businesses to efficiently manage surplus inventory through a seamless online marketplace. Built with React.js, Express.js, Node.js, CSS, Bootstrap, and MongoDB, this platform empowers sellers to list their products with ease while enabling buyers to access transparent pricing and detailed descriptions. With features like ratings, reviews, and Favorites, TradeFlow prioritizes user experience, facilitating informed purchasing decisions and simplifying inventory management for businesses.

### Freelancer

Developer-Designer | 1 week | [Github](#)

- *Technologies used: Python, Django, PostgreSQL, HTML, CSS, Bootstrap.*
- Freelancer is a dynamic web platform connecting clients with skilled professionals for short-term projects. Developed using Python, Django, PostgreSQL, HTML, CSS, and Bootstrap, it streamlines talent sourcing, fostering collaboration and success in the realm of freelance work.

### Food Compass

Developer-Designer | 1 week | [Github](#)

- *Technologies used: JavaScript, Node.js, EJS, Express, Mongoose, MongoDB, RESTful Routing, JSON api, Bootstrap*
- Food Compass is a captivating web application that invites users on a global culinary adventure. Utilizing EJS, CSS, JavaScript, and MongoDB, this immersive platform offers an engaging exploration of diverse cuisines worldwide. As the lead developer, I meticulously crafted an intuitive user experience, showcasing expertise in front-end and back-end technologies. Food Compass represents my ability to deliver innovative solutions that resonate with users, combining technical proficiency with a passion for culinary exploration.

### Memory Game

Developer-Designer | 1 week | [Live](#) | [Github](#)

- *Technologies used: HTML, CSS, JavaScript,*
  - Developed a memory game utilizing HTML, CSS, and JavaScript to enhance user engagement and cognitive skills. Implemented features such as card flipping, matching logic, and scoring system, showcasing proficiency in front-end development and problem-solving.
-

## WORK EXPERIENCE

### IT Assistant

Norwegian Refugee Council

Amman, Jordan

2019 -2022
